

Evaluation Kits

EVA 100 / 105

EVA 100/105 are evaluation boards to support the development of applications based on EnOcean radio modules.

EVA supports a quick evaluation of all receiver operation modes. In addition it provides easy setting-up operation of the receiver side when EnOcean transmitter modules are evaluated.

Components included

- EVA 110 Evaluation Board (PCB)
- 230V Wall Power Supply (EVA 100 only)
- 120V Wall Power Supply (EVA 105 only)
- EVA100 /EVA105 (868MHz)
 - RCM 110 Receiver Module
 - RCM 120 Receiver Module
 - PTM 200 Radio Switch Module with Switch Rocker
 - STM 110 Sensor Transmitter Module with Solar Cell
- EVA-CD including
 - User Documentation
 - WinEtel V6.1
- 2 BAS125-07w Double Schottky Diodes

Type
EVA100

Ordering Code
S3004-G100

Type
EVA105

Ordering Code
S3004-G105

Type	Content & Description
EVA 100	EU version (230V/50Hz) / 868 MHz
EVA 105	US version (120V/60Hz) / 868 MHz

The evaluation kit is for laboratory use only!
