

Navigan™ Wireless Commissioner

NWC 300

Navigan™ Wireless Commissioner NWC 300 enables simple, wireless configuration of compatible EnOcean controllers.

NWC 300 can be used to associate (link) supported sensors and switches with these controllers to form advanced control systems.

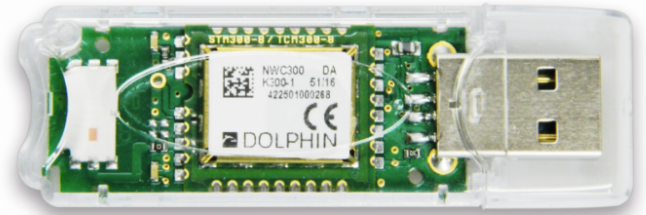

In addition, advanced configuration parameters can be defined using the PC-based user interface.

Configuration settings can be saved and restored or cloned to enable quick configuration of multiple controllers.

Interactive help is available in the form of a guided walk-through process.
