We: EnOcean GmbH
Kolpingring 18a
D 82041 Oberhaching
Germany

Declare: under our sole responsibility that the following labelled products

Transmitter: PTM 215Zx, PTM 216Zx
to which this declaration is related, are, when used as specified, in conformity with the technical requirements of the standards and the provisions of the essential requirements of the Directives detailed below.

Directives:
Restriction of Hazardous Substances in Electrical and Electronic Equipment Directive (RoHS) 2011/65/EU

Standards used:
EN 301489-1:V2.2.0, EN 301489-17:V3.2.0
Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment;
Part 1: Common technical requirements
Part 17: Specific conditions for Broadband Data Transmission Systems
Electromagnetic compatibility (EMC)
Part 6-2: Generic standards – Immunity for industrial environments
Part 6-4: Generic standards – Emission standard for industrial environments
EN 300328:V2.1.1
Wideband transmission systems; Data transmission equipment operating in the 2,4 GHz ISM band and using wide band modulation techniques
EN 62479:2010
Assessment of the compliance of low power electronic and electrical equipment with the basic restrictions related to human exposure to electromagnetic fields (10 MHz to 300 GHz)
Information technology equipment - Safety
Part 1: General requirements
Switches for household and similar fixed-electrical installations
Part 1: General requirements
**Recommendations:** ERC Recommendation 70-03

**Important hints:** RED approval is only valid for products in delivery state, including standard hardware and software.

Dolphin radio modules are components which are delivered to OEM manufacturers for their use (integration) in final or combined products. It is the responsibility of the OEM manufacturer to demonstrate compliance with all applicable EU directives and standards. The EnOcean declaration of conformity serves as input to the declaration of conformity for the final product.

At the time of writing following documents guidance have been published:

Specifically, within the new RED framework, all OEM manufacturers have for instance to fulfill the following additional requirements:

- Provide product branding clearly identifying company name or brand and product name as well as type, charge or serial number for market surveillance
- Include documentation containing full postal address of the manufacturer as well as radio frequency band and maximum transmitting power
- Include a user manual, safety information and a declaration of conformity for the final product in local language
- Provide product development and test documentation upon request

If OEM manufacturers need further assistance, we recommend to contact an accredited test house for detailed guidance.

Place of issue: Oberhaching
Date of issue: April 15, 2019
