

This document describes the packaging concept of EnOcean Dolphin modules. The concept is optimized for automated production, effective handling during shipment, and storage on the customer side.

EnOcean Dolphin products are delivered in disposable one-way tray or tape & reel packaging. Please use the recycling operators known to you.

Tray:

The modules are placed in trays (polystyrene). These trays are stacked in a cardboard box containing one packaging unit. The cardboard box is placed inside a delivery package which depends on the order size.

Tape & Reel:

The modules are packed in T&R, put into a sealed dry pack, and shipped in a delivery package.

Product Name	Ordering Code	Packaging Unit in pcs	Tray	T&R	Weight PU in kg	Size PU in mm
