- 1) Customer can approve his product based on EnOcean's modular approval. Test certificates and a description of requirements to fulfill conformity (e.g. labeling, antenna, duty cycle) are available at product website for download within the radio module user manual.
- 2) EnOcean OEM (finished) products with type approval are available for this frequency or market.
- 3) Customer has to sign OEM Limited Modular Approval Agreement.
- 4) There is no modular approval, only finished products can get approval. SRRC license needs to be obtained by the manufacturer of the finished product or local distributor. License and test certificates for specific products are available.
